Stanford University
Palo Alto, California

Dear Josh:

Because of preoccupation with other matters, I had not even gotten around to replying to your strictures apropos THE HYDROGEN BOND when in came your encomium on the STERN. It is a pleasure to acknowledge such a pleasant comment.

I am going away for a little rest, but soon I hope to get back on the campuses. When I do, I will head for Palo Alto and a visit with Esther and you. I hope that place still exists where they have a reasonable facsimile of Viennese coffee. Meanwhile, my regards.

As ever,

W. H. Freeman
